Won/lost is always from our team's perspective. Retention is the percentage retained by the kicking team (our wins on our kickouts, opposition wins on their kickouts), using known outcomes including Out of Play / Sideline as a loss for the kicking team (our Out of Play counts in Lost; opposition Out of Play counts in Won by us). The Out of Play figure is a subset of these losses, not an additional kickout or player possession credit. Older kicking-team results are translated on read. Marks are attributes of these kickouts, never additional events. Unrecorded or legacy Medium lengths are counted in total kickouts, not short/long. Player involvement below reflects attribution, not an inferred receiver.
